

ERASMUS - BUDAPEST

Monday is a school programme, so it won't be expensive Originally, we planned a hop and on bus tour, but it's awfully expensive and in March an open-air bus might be too cold.

On **Tuesday** the hospital in the rock might be interesting for the kids, it's not an average museum. Here is its link. The info can be read in English too.

<https://www.sziklakorhaz.eu/>, so we can't miss it. Lunch is handled by everyone individually.

On Wednesday after visiting the Parliament you can walk around the city where you want. Of course, we'll help (so our students)

On **Thursday** afternoon you can choose from many sights. We can discuss it later in Budapest, or we can make different groups according their taste. I recommend our new museum „The House of the Hungarian Music”. It opened last month and it is perfect for those, who like music. Here is the link.

the lunch might seem a bit expensive, but it's a restaurant where after paying the sum you can eat as much as you want. And the food supply is rich. It's worth.

As you can see, we have changed the programme. We squeezed the trip to Székesfehérvár and Tihany into the programme on Friday. Its organization is in progress, I haven't got any info about the bus price yet.

If you travel by air we (our students) can offer a pick-up service for you.
